

Fred Beranek
Technical & Quality Services, Manager
SRS Site Chief Engineer
Washington Savannah River Company
DOE Complex Wide LIMS User Group Meeting

October 17, 2006

What is the DOE LUG

- **Group of managers and technical representatives interested in communicating with other DOE sites and labs to find better, fast, cheaper ways of conducting business to reduce redundancies across the complex (Price -Anderson)**
- **Formed in 2002**

DOE LUG Purpose

- **Develop a resource network of technicians and executives**
- **Share potential cost savings ideas**
- **Develop lists of products (not just LIMS but other interfacing products) used across the sites**
- **Serve as a noticeable entity to influence the vendors in changes needed**

Why a Complex Wide User Group DOE LUG?

- Identify and resolve LIMS issues and problems common to all DOE sites and facilities
- Identify and share tools, techniques, and methodologies for improving laboratory information management
- Share thoughts and opinions about those products
- Share interface programs

NOT SPECIFIC TO A PARTICULAR LIMS PRODUCT

What can the DOE LUG do for you

- **Reduce Costs**
- **Provides networking opportunities with a common goal**
 - **Share information**
 - **Share LIMS configuration/implementation strategies**
